High Class Groceries, Moderate Prices

The grocery situation like that of every other class of merchandise is unusual at the present time but the Union Supply Company stores are still keeping up their high class line of goods and celling them at moderate pricesthat is very moderate prices considering the general advance in groceries. When it comes down to moderate prices there isn't such a thing known now All classes of groceries produce, and provisions are at high water mark, but positively our prices are lower for the same class of goods than any competition that we know of. There are some good reasons for this. One is the great quantities we buy another is the fact that we pay cash absolutely for every dollars worth of goods bought. These are advantages that assist us in buving goods at low water mark prices Just now our prices on sugar coffee flour rice breakfast foods canued and bottled n nts and vegetables of every sort mentionable are reasonably low. The moderate prices extend to our meat man ets and to our produce departments. The lines are always complete, the quality high class the service good-that is about all you can expect. PIKER

ATLAS carried the world on his neck only in mythology. Therefore he was a piker—and a faker. But Atlantic Gasoline is daily carrying thousands and thousands of motor-cars over the brows of steep hills—and there's no myth about that, absolutely none.

Here's gas with go and gallop galore. Regular "he" fuel, with sinews strong and virile. You'll go farther and faster on a gallon of Atlantic Gasoline than you will on the mongrel fuels that pretend to be as good.

Atlantic Gas is to sluggish motors what tonic is to tired, overworked humans. It gives motors a new lease on life and a new interest in living. Tank-up with Atlantic Gas and refuse rank imitations which reek with kerosene or worse.

MOUNT PLEASANT, Oct. 12-Professor Norman Hayes has opened his naturalization school in the high school building. This school was very successfully conducted last year and a number of the tien who were at this school last year have been called in the draft or have joined the Regular Army and National Guard. These men have found the English leading and writing that they learned very beneficial to them in the army. Italians, Austrians and Polish are registered in this school(with the Italians in the lead. A number of the men in attendance will be subject to draft when the next army goes from here. Last year the Italians and Austrians discussed the war and at here. Least Austrians discussed the war and a medical department to the earny interest of them to be parted by Mr. Dr. Gerechter will return to the earny for them to be parted by Mr. Friday.

For Riching Torture

There is one remedy if at seidom foils to stop inching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any druggist can supply you with remo, which generally overcomes all skin diseases. Acae, eczema, itch, pimples, rashes, blackheads, in most cases give way to zero. Fr quently, minor hlemishes disoppear ove night, litching usually stops instantly. Zero is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extralarge bottle, 15.00. It will not stafe, is not greasy or stidely and is positively safe for tender, sensitive sking.

"Because because I-e ou," answered MacBeard. Ida burst into ironical laughter. The

situation was so impossible that there was room for no emotion but amusement. And in that laugh the professor felt a thousand arrows of jealousy rend him.
"Listen to me!" he exclaimed pas-

sionately. "You don't know who I am or what I am trying to do. I am going to obliterate the earth, as it is known to you. I commend the Man of the Future. The Man who is to come. The new race of the sen, which is to sweep away the puny monkey-man. And I want you to share my power with me."

Ida laughed hysterically. She could not help herself. MacBeard glared at

her. He did not know what to do.
"You shall see!" he cried, bestde
himself with anger. "You don't be-tieve what I tell you? I'll prove it."

"It doesn't make any difference, pro-fessor. I am not a blackboard," an-swered Ida. "Willi you kindly take me back to the place you brought me

"No!" shouted MecBeard. "You'll stay here until you learn to love me Why can't you love me?" Ida's look was touched with pity

She did not unswer bim.

MacBeard sounded his tuning fork, and immediately the monsters garbered about them. The hydrogen haze rolled higher, disclosing the entire interior of the cave, and the idol. Mac-

Beard sounded another fork, and the creatures began adding Ida toward the recesses of the cave. "If I sound the sacrificial note you die," sported MacBeard.

Ida, perfectly passive, waited. The monsters guarded the entrance. She was alone. Outside MacBeard paced up and down beneath the sea in fury. He had eucountered a problem which

seemed insoluble.

As Ida waited, all at once a most remarkable object broke upon her gaze. Advancing through the midst of the landhous, rague monsters curside the entrance there came a perfectly human figure, a man with a square

He passed through the monsters without the slightest difficulty and en-tered the care. He was walking exactly as a boy valles when he drives a flock of geese or a herd of pigs; that is to say, there was a straddle in his step quite different from the rolling guit of a sallor, and he had his arms extended. With his lips he made a hissing sound which resembled

And in front of him, retiring backward, Ida thought she saw a phantom woman's form. But it must have been a delusion, because it was only by straining her eyes that she could distern anything at all; and now and again the figure seemed to vanish into

EXPERT AUDIT OF BOOKS

Being Made by the Federal Trade Com- cated: mission to Secure Pirst-Hand Informent to my testimonial written a few

governing the "fixed" price of these commodities, through subterfuges or evasion, and "get away with it," have

a surprise in store for themselves.
The allegation has been made that here and there are producers and dealers who are not satisfied with the allowances they are to receive under the established prices, and surrepti-tious; in some instances, and boldly in others, have made additions to the fixed prices for which there is no warrant under the rules and regulaions of the Fuel Administration. Knowledge of such transactions has

been brought to the attention of the Washington authorities and the information has good out that violations of this character will be dealt with as the Law provides. It is not anticipated by the Fuel Administration that prosecutions can be entered upon promptly, or that all violators will be apprehended before the government decides to take such a step. It is Frank Black of Dickerson Run, who reasonably certain, however, that has been home on a few days fursoconer or later those who have been lough, returned to Camp Lee, Wednesmanling to play the same according day. to the rules will be obliged to pay the penalty of their unfairness.

A federal agent recently visited one

of the largest towns in the Connellsville coke region to make inquirles into, and check up some income tax reports filed by certain parties a year ter. Belle, Mr. and Mrs. David Rissel or more ago. In conversation with and James Goldsboro, left Tuesday a resident this agent made it plain for Camp Lee, Petersburg, Va. They that in his department, and also in others having to do with the enforceent of governmental rules and regulations, it was but a question of time mutil every person who has practiced evasion or deception, or knowingly violated provisions of the law or regulations, will be brought to an accounting. The investigation of every income tax report filed has become the fixed policy of the Revenue Department, and with modifications to sufthe conditions it will also be applied to price-fixing activities of the govern-

men' in due course.

"People may congratulate therrelives over 'getting by' once," said the federal agent, "but they will find that Uncle Sam is very patient, painstaking and thorough in the inquiries he may institute, and some fine morning, may be a year or two hence, they will have a call-from one of his agent with a request for certain explanations."

A few days ago an agent of the Federal Trade Commission, accompanied by an expert accountant called at the office of a man interested in a number of coal mining companies in this and other states. By way of introduction the, agent inquired if he were in the office of the "X. Y. Z" Coal company. Informed that he weighe said: "Let me see your books for the year 1916."

Hydred the Monte Venderful Treatment for Catarrh Ever Discovered. To not try to cure catarrh by taking drugs into the stomach; it cannot be cured in that mainer. The only way in which this too common disease can be cured in that will kill the caturch growth. Hyomel is the only known method of treatment that accomplishes this. It is the simplest, most pleasant, and the coll consisting of an inhaler, dropper and sufficient Hyomel out at certain weeks. This should effect a cure in ordinary cases, but for chronic and eep-seated cause of catarrh, longer use may be necessary, and then extra bottles can be obtained for a few cents. It is not alone the beat (it might be called the only) method of treating catarrh, but it is also the most economical.
